

# Climbing the virtual training mountain

The training must go on! All of us in the learning space are in a world right now where we're trying to adapt our training to a virtual format. What does this mean – both from a mindset and skills perspective for us as learning professionals?

The good news is the technology has caught up and there are a whole host of options available now to host virtual training programs. Specifically, we can deliver activities-based training for a myriad of topics using different learning tools.

We, at The Learning Gym, have translated many of our learning games and activities to the Virtual Instructor Led Training (VILT) setting. And this session brings all those elements and ideas to you.

**This activity-based and learner-driven session explores the following 4 components to help us climb the virtual training mountain.**

What's out there in plenty is resources on how to facilitate a virtual sessions and tips on specific online platforms. What we're focusing on, in this session, is to give you a holistic picture of what it takes to climb the mountain that is virtual training. Irrespective of which platform you use, your takeaways from this session will help you be further develop your mindset and skills to facilitate engaging and impactful virtual trainings.

## In this power workout you will
